## PAGE 18: CHALICES, PATENS & CIBORIA

The Chalice and Paten styles 35 and 295, along with the style 100 Ciboria are our standard communion-plate lines. They are crafted from EPNS silverplate with vessels and upper Paten surfaces lined in heavy 24ct goldplate. All are engraved with a fleury cross and are available in a range of heights including 115mm, 150mm, 180mm, 205mm and 230mm.

In addition to the standard range of chalices above, our skilled craftsmen manufacture many other designs from an extensive collection of Chalice and Paten styles which have been made over many years. All can be supplied with or without presentation carrying cases (see photo opposite) and manufactured in either EPNS or sterling silver, with either a silver or a 24ct gold finish. A selection of this range appears below.

### Special Commissions

Our company is proud to undertake the manufacture of special churchplate commissions in gold, sterling silver, goldplate, EPNS or brass, whether it be for a single item or a number of pieces to commemorate a special event. We are happy to provide an obligation free quotation on receipt of full details, including a sketch or photograph of the required piece.
